The Author: "No ordinary manager... his prediction came to fruition" - *Sunday Telegraph*

David Kauders FRSA was educated at Latymer Upper School, Jesus College Cambridge and Cranfield School of Management. He is an investment manager and contributes occasional articles to the UK financial press.

The book: The crucial decision the British government has taken will have enormous consequences for our children, grandchildren and all future generations.

This book clearly describes the different options available, their impact on the UK economy and on individual citizens resident both in the UK and Europe. It poses questions that ought to be answered before Article 50 notice is given. Then it explains the detrimental effect on trade in both goods and services that will be caused by leaving the single market. Parliament has to consider both the unity of the United Kingdom and risks to the British economy in deciding whether and how to amend any proposed legislation.

Table of contents

1	Britain's options	4	Britain and Europe
2	The importance of free trade	5	The state of Britain
3	A British view of non-trade factors	6	What now?
